DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on **April 9, 2010** has been entered.

Oath/Declaration

2. The oath or declaration is defective. **A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required.** See MPEP §§ 602.01 and 602.02. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 6,733,535 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

The reissue oath/declaration filed with this application is defective because it fails to contain the right language. In page 2, paragraph number 4, the phrase “is know to be material to

Art Unit: 3774

the examination of this application” is incorrect and must be as following: “is know to be material to the patentability of this application” statement that all errors which are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant. See 37 CFR 1.175 and MPEP § 1414. Finally, the inventor’s signature is missing in the declaration.

In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

The Applicants filed, on August 5, 2009, a “to correct errors statement”. However, they did not submit a PTO/SB/51 form (<http://www.uspto.gov/web/forms/sb0051.pdf>) along with a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1).

This was addressed in the previous office action, and explained to Attorney Gregory P. Webb during a telephonic interview in June 2010. Therefore, the Applicant needs to submit an executed PTO/SB/51 form AND a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1).

3. Claims 1-22 are rejected as being based upon a defective reissue application under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

Art Unit: 3774

“Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant.” See MPEP § 1414.01.

It is not sufficient to state that the patent did not claim the full scope of the invention since applicant has not pointed out what the other claims lacked that the newly added claim has or vice versa. Applicant needs to point out words or phrases that would be considered an error under the reissue.

Conclusion

4. All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

Art Unit: 3774

will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
